

Addendum to FIDReC Annual Reports

Revision of 'Claims pending' figures under the Detailed Statistics Section

20th January 2026

We received feedback about potential errors relating to the 'Claims pending' figures in our previous annual reports. Following a detailed review of our past statistics, we noted data extraction issues affecting the Annual Reports (AR) for the financial years of 2021/2022, 2022/2023 and 2023/2024.

The corrected 'Claims pending' figures replacing the previously stated figures are as follows:

| Pending Claims | AR 2021/2022 | AR 2022/2023 | AR 2023/2024 |
|----------------------------------|---------------------|---------------------|---------------------|
| Corrected Claims pending | 412 | 763 | 1,174 |
| Previously Stated Claims pending | 447 | 684 | 848 |

These revisions do not impact any of the other statistics found in the affected Annual Reports in any material manner.
